Case #16

Linda Maroulis

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and collaborated in conspiracies and monopolies for centuries in which affiliates as of February 13, 2013 forced the plaintiff, Linda Maroulis, to go to a Sparrow Hospital facility which forced testing upon the plaintiff, even after she refused consent because such forms of medical procedures are against her religion and belief systems, and the defendant's affiliate still took DNA samples of the plaintiff so that the defendants could use the plaintiff's DNA for research, and thus by doing so interrupted my studies as a self proclaimed researcher, and the defendants then billed the plaintiff for testing and procedures she never consented to, and told such affiliates from the beginning that she had no insurance and could not afford any procedures or testing, in which the affiliates proclaimed they had hit the jackpot, and then purposely inflicted the plaintiff with the above said expensive treatments and forced the plaintiff into a Christian Facility, forced medicine upon the plaintiff, and then forced the plaintiff to go to a court case in the Christian Facility held by a Catholic Judge without a jury, although the plaintiff had requested on the appointed lawyer, to wrongfully enforce injections of medicine into the plaintiff to make it so the plaintiff could not stand up for the United States Of America and submit cases to reclaim what the plaintiff has found to truly be hers.

2. The defendants collaborated in ongoing conspiracies using people and organizations for inhumane productions which wrongfully used/are using resources belonging to the plaintiff, Linda Maroulis.

3. The defendants invested into companies of which wrongfully went against the natural born rights of citizens of the United States of America and this world, and sold out personal information of clients and employees to exterior forces which infringed unfair interest rates, fines, penalties on debts, and caused wrongful losses and unrighteous takeovers. .

4. The defendants sold out DNA information belonging to plaintiff, Linda Maroulis, her children, and citizens of the USA, to individuals and organizations with conflicts of interest for the natural good health, safety, and best interest of the plaintiff, Linda Maroulis, citizens of the

USA and citizens around the world, and is a national security risk in which citizens are being wrongfully accused of crimes with such stolen DNA being used as false evidence.

5. The defendants conspired with and used/are using religious, governmental, medical facilities, and other profit and non-profit organizations to place tracking mechanisms in children of the defendant, and other children of this world without the parents consent or knowledge of the defendants doing so, and without the parents being made aware of risks involved in altering human DNA.

6. The defendants conspired/are conspiring to toxify the United States Of America and ruin the world's fresh water sources as a sham to produce fear into people which caused mental and physical disorders weakening the general population of making proper decisions.

7. The defendants conspired and staged false elections and fake administrations not allowing real citizens of the United States Of America to become President as means of vacuuming the resources and assets of the United States to other parts of the world.

8. The defendants are responsible for altering DNA of individuals and using productions of elements to make people stupid and violent even making them attack their own families.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the plaintiff and against defendants and that it be known to all people of this world that they themselves have rights and control of to their DNA, that all DNA tracking mechanisms are removed from all individuals, and that the defendants be charged with and fined for and held liable for all cost for these horrible activities of mass destructions conspired against the human population which are leaving fishermen dropping like dead flies from east to west across the world.

Case #1

Linda Maroulis

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and collaborated in wrongful and unfair financial institutions and affiliations issuing wrongful engagements and dealings.
2. The defendants invested in institutes of which gave out large loans with little or no interest and without any guarantees or collateral to investors that had already lost money, and charged higher interest for loans with guarantees and collateral to land owners, farmers, small business owners and families in counties across Michigan, and across the world.
3. The defendants gave out the above said such loans creating artificial price index, which over produced housing at overinflated costs, which inflated the appraisals of other land and structures inappropriately and increased costs of building and maintenance supplies, which made repairs and upkeep unaffordable to many creating inaccurate records and false gains.
4. The defendants had bank employees, such as the plaintiff, unknowingly help sign off the homes of Michigan residents, and such actions spread across the world and inflicted homelessness upon masses of people, and the defendants used the plaintiff to sign off commercial mortgages to County Clerks Offices across Michigan without informing the plaintiff of the reactions this would have to the economy, how it was going to increase homelessness, and how it was not actually right and illegal.
5. The defendants have not righted the wrongs from these illegal and wrongful activities even after requests from land owners and have not repaid the people and/or given back their homes and land, and instead are involved in doing these same mistakes over again.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the plaintiff and against defendants and that there is a freeze put on all involved financial institutions until the defendants redo all mortgages fairly of which the plaintiff, Linda Maroulis, signed checks to and sent to County Clerk's Offices across Michigan while working for the Independent Bank in Ionia, Michigan in 2002-2003, and thus removing the plaintiff's name from such wrongful

transactions responsible for causing severe losses for masses, and unfair interest rates, fees and fines are subtracted from the debts of clients and employees who were victims to such heinous crimes, and proper types of agreements are made for people to repay their debts.

Case #2

Linda Maroulis (Lalasangam/Lala)

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and sent in spies and terrorists to intermingle in West Virginia and to seduce and impregnate the above said plaintiff, Linda Maroulis, to run her off her land at McCreary's Ridge, West Virginia, of which Kirtanananda Swami Bhaktipada (Keith Ham) gave to her in return for years of hard labor she had performed.
2. The defendants endangered the lives of the plaintiff, children and residents of West Virginia and the United States of America by sending spies and terrorists into the New Vrindaban Community since the 1970's to wrongfully take funds with plans to wrongfully extract resources from McCreary's Ridge, which are reserves meant for use for the Cities Of God in America.
3. The defendants caused the plaintiff to have to move from West Virginia due to threats made by intermingled terrorist known as Siva Kumarian, from India, in which by doing so stopped the plaintiff from continuing the mission to build Cities Of God worldwide to save the world and everybody, which allowed the defendants to wrongfully use funds to coerce, bribe, blackmail, etc... using gains from illegal resource extractions which led to going too deep and penetrating inner meridians of the earth and sent electrical charges throughout cracking the layers of the earth that normally work as a containment mechanism for gasses .
4. The defendants continued with these wrongful production procedures instead of trying to correct the mistakes and cracked the earth all the way through to Siberia, Tibet, Mexico, Japan, and places all over the world, which is causing land formations to move, and split releasing excessive amounts of gasses.
5. The defendants ruined normal supplies and quality of natural gas by continuing with wrongful procedures and are wrongfully increasing pricing of natural gas when this gas should be free because of over abundances and unsafe containment issues due to current changing climatic conditions of elements in the environment caused by the over

extraction of resources produced by the defendants, affiliations, and administrations, and is also due to the extraction and transportation of other elements, such as the uns and un uns, which were taken from within the plaintiff's land at McCreary's Ridge, West Virginia and transported to institutes in San Francisco and to St. Petersburg, Russia for research and were not/are not in proper containment.

6. The defendants caused excessive amounts of gasses to leak into the air which has caused an extreme increase in cancer and caused much suffering and many deaths.
7. The defendants took the gains from the plaintiff's land and resources for themselves and claimed to be rich when in fact they are just thieves, and gains cannot be determined until cost of the destruction, diseases and loss of lives is accounted for.
8. The defendants purposely extracted resources from the plaintiff's land in attempt of trying to split the plates which are rightfully owned by the plaintiff, Linda Maroulis, not only from land owned in West Virginia, but from shares in the oil/gas/coal/mineral and road industries so that they, the defendants, can try to wrongfully split up and over take the North American land mass to expose deeper resources which are the reserves of rare elements that were set forth from our Forefathers to be protected to save our country and the world and were not supposed to be used merely for energy and exportation purposes.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the plaintiff and against defendants and fine the defendants 108,000,000 US dollars to be paid to the plaintiff, and to pay medical cost to victims affected by these wrongful activities plus 108,000 US dollars to each of the victims and/or families of such victims who have or are suffering or have lost their loved ones from disease caused from these excessive amounts of gasses, and for the defendants to pay the cost to seal up escaping gasses, and for the defendants to pay the costs to supply gas for free until this issue is fixed and these containment issues are no longer hazardous, and for the defendants to pay cost for the plaintiff to go to St. Petersburg, Russia and give proper respectable justifiable names to the elements that were extracted from the plaintiff's land at McCreary's Ridge in West Virginia, and for the defendants to give the plaintiff land in twenty four locations across the world for new countries that are now known as disputed areas, and to pay for the building of the International Cities Of God in these new countries, and for the defendants to pay for the cost to plant one hundred and eight trillion trumpet lilies and one hundred and eight Godzillion flowering trees worldwide through small businesses not affiliated with the defendants to save the bees, which will help to save everybody.

Case #3

Linda Maroulis

Plaintiff

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

- 1.The defendants conspired with affiliates and have been/are wrongfully using shares belonging to the plaintiff, Linda Maroulis.
- 2.The defendants wrongfully transported weapons of mass construction and elements not properly contained across roads and water ways in which the plaintiff, Linda Maroulis, owns shares in and does not approve of producing weapons of mass destruction or the use of any shares owned by the plaintiff being used for any type of destruction.
- 3.The defendants paid for and caused uprisings so that records of assets and true land owners would be destroyed across the world in attempts to stop the plaintiff, Linda Maroulis, from using her shares to help people with by building Cities Of God across the world.
- 4.The defendants damaged plates of the Earth across the world that the plaintiff, Linda Maroulis, is actually the owner of the most shares of.
- 5.The defendants wrongfully misused and misrepresented the plaintiff by using her promotions, ideas, discoveries, life researches, writings, shares, resources and assets, which have made trillions upon Godzillions of dollars in gains just from when the plaintiff started writing up proposals to business and governmental leaders since 2008, in which all ideas of the plaintiffs are reserved for use by the Cities Of God and by the plaintiff's companies.
- 6.The defendants used and are using the plaintiff's ideas, visions and insights to find lucrative resource areas across the world without paying or compensating the plaintiff and without considering the destruction it is doing to the environment, and opened Climax Molybdenum back up in the Rocky Mountains even after the plaintiff protested it to the White House and even though contaminations from before Climax shut down have not been cleaned up and dealt with and even after the Plaintiff protested the use of students in toxic researches and the use of funds to cover up and hide these toxins instead of enforcing the industries to clean up the toxic messes.

7. The defendants reopened up old dangerous contaminated mines like Climax even though they knew that it would cause excessive amounts of gasses to leak into the atmosphere and is causing excessive amounts of Molybdenum dust to be released into the air and environment, which is causing people and animals to be outraged, hormonally insane, irrational, unrealistic, unable to think right to make proper decisions and causing an abnormal amount of increases in diseases and deaths.
8. The defendants caused sickness, plane crashes, car accidents, fires, and even death from the materials used on planes, cars, trains, and other mobilities even in toys that reflect solar rays and are magnified which cause these rays to zap and affects people, animals and objects adversely, and purposely used wireless systems to alter peoples DNA, and the defendants would not change the use of such materials, recall these materials, or stop using such inhumane practices, and took out North African Leaders because the Plaintiff requested that these materials be recalled because of the losses from toxic leaching that these materials are causing will be too much because North Africa had/has enough invested shares to instate such recalls.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants to give the Plaintiff, Linda Maroulis, back control of her shares and to immediately provide a CEO position corresponding with all of the industries and governments and is provided with a salary, insurance, vacations, benefits, bonuses, retirement, and controlling shares in comparison of other CEOs or major shareholders for the Plaintiff's labor, time and energy used, and that the defendants stop using the Plaintiff's shares for weapons of mass destruction, stop using the Plaintiff's shares to cause uprising and illegal wrongful takeovers, stop using the Plaintiff's shares to move the Earth's plates in which are causing hurricanes, tornados, earthquakes and other disasters that normally would not have happened naturally, and that the rightful ownership by the Plaintiff of all of the Earth's plates and all resources from shares owned by the Plaintiff that are signed my Carl G Fisher that were originally bought by the Plaintiff's Grandfather and were purchased fairly by the Plaintiff, Linda Maroulis, at her deceased Uncle's estate sale are recognized, secured and placed in the owner's, Linda Maroulis', companies as submitted to the Securities & Exchange Commission by the Plaintiff on August 21, 2013, and for the defendants to stop using the Plaintiff's ideas, plans, proposals, discoveries, life researches, shares, interests, investments, insights, and visions that are meant to help people but instead are being used by the defendants to cause harm to others and the environment, the for the defendants to stop using students in toxic researches for industries that harm humans and the environment, and for the defendants to recall the materials that are causing the solar zaps, and for the defendants give back to the Plaintiff, Linda Maroulis, these rightful shares in non-harmful forms.

Case #4

Linda Maroulis, International Cities Of God (INTERCOG)

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and wrongfully acquired land, resources, funds, gold, plans, rights, patents, securities, discoveries and many other assets that rightfully belong to the plaintiffs, Linda Maroulis and Susan Joseph, and the defendants wrongfully extracted resources out of McCreary's Ridge in West Virginia that belongs to the plaintiffs, and the defendants sent interminglers into our community to run us off the land before Howard Wheeler III and Kirtanananda Swami could put in the deeds of lands to the names of the plaintiffs, of which was promised to the Plaintiffs for performing years of hard work, and because the plaintiff, Susan Joseph, was married to Howard Wheeler III and is the mother of two of his children.
2. The defendants used the plaintiffs, along with other New Vrindaban members, as slaves for pretentious operations leading to resource theft productions, and misled the plaintiffs to raise funds for the planned and endorsed Cities Of God which were meant to save the world and everybody, when actually the defendants only wanted to take control of funds and resources there to use for making weapons of mass destruction, for annihilating mass populations, and for destroying the Earth, which was well known for centuries would happen if such resource extraction processes were implemented on that side of Big Wheeling Creek in West Virginia, USA.
3. The defendants wrongfully used plaintiffs' above said assets to attack other countries with and to steal resources with, and are even misusing birds and other animals for wasteful immortality research projects so that their elite few can try to stay alive forever.
4. The defendants wrongfully hired people to intermingle into New Vrindaban to molest women, children, and even men, to run the plaintiffs off their land so the resources could be wrongfully extracted, the defendants swayed rapist, murders, jewel smugglers, drug smugglers, child traffickers, and spies to attack the residents of New Vrindaban Community, and even beat, raped, poisoned, over and improperly medicated Kirtanananda Swami (Keith Ham - the true Founder Of New Vrindaban), and wrongfully coerced him into signing papers leading to the land at McCreary's Ridge, West Virginia, and at Silent Mountain in Cameron, West Virginia to be acquired wrongfully by interminglers misrepresenting ISKCON to gain control of assets, which led to the incompetent signing of papers to allow resource extraction which would lead to destroying West Virginia, the United States Of America, and the World, and sent the spy rapist,

██████████ to New Vrindaban to molest children, to rape the residents, and to poison Hayagriva/Howard Wheeler III (the true land owner of the originally leased land at McCreary's Ridge), in which was done by ██████████ breaking into Susan Joseph's house with contaminates from the brick factory to put into Hayagriva's bottle of cough syrup, of which contained opium, (rarely found in the US at that time), and was found in ██████████ blood stream shortly thereafter when he was in a car accident on Rt 88.

5. The defendants stopped the progression of the building of the Cities Of God to wrongfully take over the plaintiffs' assets and gain control over businesses, resources, people and the world in attempts to stop the plaintiffs in using their rightful assets for saving the world with, which is the mission Kirtanananda Swami instructed the plaintiffs to carry out on behalf of Srila Prabhupada, the founder of ISKCON, who came from India with this mission to save the world.
6. The defendants stole and misused the plaintiffs' assets and wrongfully governed over Srila Prabhupada's ISKCON so that they could gain control of lands and resources throughout the world, and the defendants are using ISKCON facilities for supporting migrants, but not citizens, so the defendants profit from taking over and administering illegal operations, which are actually resource camps and businesses that wrongfully use/used women, children, men, families, illegal aliens, and even priest in their illegal resource acquirements; just as is happening to this day in the Appalachians of the United States Of America.
7. The defendants operated illegal operations that caused excessive toxicity of the Appalachian Mountain's land and water ways.
8. Previous complaints and protest were made to the White House, to industry owners, and to world leaders, to stop these illegal procedures and actions against the plaintiffs, these families, these lands, the United States Of America, and the world, and request were made for the defendants to pay the costs for destruction caused by actions of the defendants. The plaintiffs have offered fairly, chances for rightfulness although the defendants get greedier and persist in using the plaintiffs' assets, creating worse mistakes of ill intent, and are causing massive suffering and deaths for humans and other species across the world.

WHEREFORE, plaintiff prays that this Honorable Court enters a judgment in favor of the plaintiffs and against defendants and insist that

- ❖ Extraction operations at McCreary's Ridge, West Virginia and Silent Mountain in Cameron, West Virginia cease immediately.
- ❖ A Freeze is put on all assets pertaining to this case, including funds that are in Europe, Asia, Africa, Australia, the Americas, the Middle East, in offshore banking institutes, invested into weapons of mass destructions, invested in any illegal smuggling operations and/or any terroristic organizations, and/or tied up in stocks, bonds, securities, and other investments.
- ❖ All gold and funds are replaced and awarded to the International Cities Of God, along with cost of losses of equipment and usage causing it to sit and lose value along with cost of crews being laid off, and cost of plans and delays that were made.

- ❖ The defendants replace the stolen resources and construct supports into McCreary's Ridge to stabilize the earth and clean up the contaminated water ways affected by these wrongful activities, except for the elements (known as the uns and un uns) that were taken from the plaintiff's, Linda Maroulis', land, because any movement of such said elements will cause severe damages to everybody, and in which the plaintiff gets rights and credits to such elements and resources and all researches of, and gets to appoint proper names for the un and un un elements.
- ❖ The defendants pay for the cost of 108 Cities Of God being built in each continent, and pay for the cost of 108,000 acres of land across the world to go to International Cities Of God for 108 Cities Of God in each continent with 2000 acres being in each State of the United States and the remaining 4000 acres being in designated and needed areas across the world because the land in West Virginia is no longer suitable for housing such heavy buildings, and because delays made from these wrongdoings stopped the proceedings to build these cities internationally.
- ❖ The defendants pay back wages for all who worked in New Vrindaban because it is merely a resource camp and the people were misled and were made slaves of there.
- ❖ The defendants and affiliates stop using the community's name, New Vrindaban, for illegal resource extraction camps, stop using people as slaves, stop falsely advertising resource camps as religious facilities, and to abide by the forty hour paid work week set forth by Henry Ford for fairness for the people; after forty if they desire and can afford to they can volunteer.
- ❖ The name, land, designs, and rights of New Vrindaban, West Virginia, are awarded back to the plaintiffs as the true owners of McCreary's Ridge in West Virginia, and to the family of Hayagriva, Howard Wheeler III, with the rights of all writings of Kirtanananda Swami going to the League Of Devotees and to the International Cities Of God, and with rights of Hayagriva's, Howard Wheeler III's, books going to his widow, the plaintiff, Susan Joseph, and their children.
 - The true signer/purchaser, Howard Wheeler III (Susan Joseph's husband and father of two children), of the original land on McCreary's Ridge that was purchased from Reverend Richard Rose, had binding agreements preventing the land from ever being mined or drilled in for resource extractions because pursuing such production on that side of the creek would destroy the planet, which has been well known for centuries, and again determined by authoritative representatives who Kirtananda Swami communicated consultations with about constructing the City Of God with, in which the Temple Of Understanding was to be built by the mid 1990's and the City Of God's construction in West Virginia was to be completed by 2000.
 - Susan Joseph talked to Reverend Richard Rose in 1992 about the land being put into Hayagriva's and her Son's name because Hayagriva had passed away on August 31,

- 1989 from an extremely invasive cancer. Reverend Richard Rose agreed that the originally leased land from Hayagriva, Howard Wheeler III should be put into Hayagriva's Son's name, Howard Wheeler IV, so that previous land contracts were righteously honoured, and so that the land did not fall into the wrong hands, which would put the land in jeopardy of losing the original lease and being forfeited back to Reverend Richard Rose and the Rose family.
- The East side of the McCreary's Ridge, south of the Temple Of Understanding Site, was allotted to the above said plaintiff, Linda Maroulis, by Kirtanananda Swami, Keith Ham in exchange for laboring harder than a work horse and so that she and the cows would always have a place to live out their lives safely, healthily and happily engaged in devotional service to Sri Sri Radha Vrindavana Chandra helping build the Cities Of God to save the world and everybody, and was allotted to the plaintiff, Linda Maroulis, before the defendants overmedicated and coerced Kirtanananda Swami, before jailing him and when he was still mentally competent to make legal binding decisions, and therefore the ownership to the deed of this land and the ownership of the resources of this land belongs to the plaintiff, Linda Maroulis.

Linda Maroulis (Lalagamayi)
Plaintiffs

Vs.

The Interstate and International Resource Field Companies
Defendants

Complaint

1. The defendants conspired with affiliates and transported elements that are part of the resources that were wrongfully extracted from McCreary's Ridge in West Virginia, USA to Lawrence Berkeley National Laboratory, USA , and to the Joint Institute for Nuclear Research, Russia, and other learning institutions, and hazardously and carelessly caused cancer, heart & lung disease, blindness, deafness, dumbness, outrage and hostility to the residents of the countries where these such elements were shipped through releasing toxins along the way without providing proper means of protection for the people and critters that live, work and play along these roads and water ways.
2. The defendants took part in research of resources belonging to the owner, Linda Maroulis, of the land at McCreary's Ridge, West Virginia, USA that was wrongfully extracted for the last few decades, and falsely claimed rights and stupidly named the elements that belong to the land owner, Linda Maroulis.
3. The defendants caused major pollutions issues to waterways, the air and ground because of the electronic charges that work magnetically and activated substances causing containment issues from contaminates that were buried by industries and from previous research projects.
4. The defendants used the elements that were wrongfully taken from McCreary's Ridge, West Virginia, USA, for nuclear projects that goes against the City Of God Plans that this land was purchased for and being preserved for, and such said wrongful activities disabled the functions of the plans for the Cities Of God and prevented construction of the Temple Of Understanding that was supposed to be the foothold for the United States Of America.
5. The defendants used resources wrongfully extracted from the land owned by Linda Maroulis at McCreary's Ridge, West Virginia and used these resources for weapons of mass destruction that were used by Nato in the North African Attacks in 2011 and is being used currently and

providing more weapons of mass destructions even though the main principle of the community in West Virginia was to save the world For the Glory Of God and the Upliftment Of Mankind, and even after Srila Prabhupada, in a lecture in Los Angles in the 1970's, stated "You want your atom bomb; you'll get your atom BOMB!" because the United States Military wrongfully had taken the atom bomb technology from Srila Prabhupada's Vedic Translations of Achincha Veda Veda Tattva, simultaneously one and indifferent with the Lord.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiffs and against defendants and fine the defendant 108,000 US dollars to be paid to the families for each person's death caused by such destructive negligence, cost of medical expenses to everybody exposed, and that the resources be put back into McCreary's Ridge where they were at to reinstate Earth's balance and so that the resources are used to supply energy for the Cities Of God as previously planned, and that claims and rights go to the owner, Linda Maroulis, of the land the resources were extracted out of, and that a sum of 333,333,333 is awarded to the Plaintiff, Linda Maroulis.

Case #6

International WaterWay Enterprizes LLC (IWE)

Plaintiff

Vs.

The Interstate and International Resource Field Companies

Defendants

Complaint

1. The defendants conspired with affiliates and illegally invested into real estate scams in which they misused colleges, students and businesses, that led to investing in overproducing the beef industry, in which over consumption of beef induces violence in the human brain, in which the defendants and affiliates used these means as a way to control populations by making humans become outraged and take down leaders in other countries so that they could institute their affiliates into offices in order to gain control of Libya's and Gaddafi's assets, especially the land and water ways because of oil resources. The overinflated beef industry produced unrealistic demands that could not be met, and so the defendants used the Libyan Peoples peaceful march in August of 2011 as a More Than A Million Muslim Massacre to get enough meat to support their events with, which was just a cover up for the human meat farms in the middle of Africa, the Middle East, Asia, etc... that the defendants had used our funds for in which caused Mad Man's Disease and is what really caused all of these violent raging protests.
2. The defendants illegally performed buyout procedures in the banking industry to gain control in the auto industry which led to gaining control in the utility industries, which led to gaining control in the entertainment industries which they are trying to use to gain control of the agricultural industries, which will induce big power shifts throughout the world that they and their affiliates have implemented and will benefit from.
3. The defendants illegally have invested in the entertainment industry and are using lies and are releasing falsifying statements to defame and discredit the Gaddafi Family and the true Government of Libya by taking words from previous articles and making sentences that are lies, and by misleading People to think the Gaddafi Family is still alive when "westerners" went in and took the remnants to have a doctor from Brazil verify deaths with, but still continued to put lies on TV and in newspapers stating that Gaddafi forces or troops did things when it is actually defective personnel and terrorist purposely engaging in criminal activities falsely acting under the true Libyan Military to be able to take siege of the oil refineries and Colonel Gaddafi's manmade water way.
4. The defendants used Libya's resources to invest in defaming the Gaddafi Family of the rightful praise and fame they deserve for peace making moves, and took away His Daughters titles and awards from women's organizations for the tremendous amount of peace moves made by a her, and for saving the people of Africa, and the defendants invested in murderers to kill the Gaddafi Family so that Libya and

Africa wouldn't have anyone that knows the truth and can protect them from this take-overs that the defendants and their affiliates that are ranked high in the banking industry instrumented.

5. Although previous demands were made for the defendants to stop illegal infringements that they used my proposals that were meant for IWE and Colonel Gaddafi to engage in humanitarian projects across the world, the defendants failed to cease these operations and continue them every day to defame Colonel Gaddafi, IWE, and the Gaddafi Family so that they can take over our humanitarian water way projects and claim the fame for themselves.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of Plaintiff and against defendants and demand the cease of illegally broadcasting of lies, changing the truth, changing records, and to cease killing innocent people that belong to Libya and all of our countries, and for each false media report a sum of \$3,333,333,333 will be charged for the defamation, degradation and falsifications of Libya, Colonel Gaddafi's Family, businesses and humanitarian organizations and that all such wrongful media will be banned from being published and that such wrongful media will be destroyed, and the defendants pay for the Golden Mosques to be built in 108 International Cities Of God, because the owner of IWE promised for fighting off the thieves of the McCreary's Ridge resource theft that Colonel Gaddafi would build a Mosque on the owners land for Gaddafi's Golden Mosque as written and planned by Kirtananda Swami in his book *A Devotee's Journey To The City Of God*, with no gambling, intoxication, no eating meat, fish, eggs, poultry or bugs either being allowed, and all resources must remain in IWE's owner's name for the International Cities Of God's energy supplies, and the land must be used so that cows are protected and let to live out their lives.

- 4.The defendants damaged panes (previously recorded in history as plates) belonging to the true owner of the most shares of Earth in on and above by such said wrongful and illegal extraction of world natural resources

5. The defendants wrongfully and illegally took control of businesses and assets of Earth to enable unauthorized and unregulated extraction of natural resources that broke rules of the principles of the United States Constitution along with other Constitutions across the world and caused unfair and unbalanced bargaining which has led to unneeded monopolizations (ex: Loggers were only allowed to cut a certain percentage of large trees in any given area during any given time period because if such practices were exercised it would cause increases in insects, parasites, pest and fungi to move to other species as told to Plaintiff, Linda Maroulis, over two decades ago by loggers of the Appalachian and of who instructed Linda Maroulis to file charges if such illegal practices ever exist.)
6. The defendants used property and equipment belonging to citizens of this world without just reimbursement of cost, expenses, investments and interest being granted to citizens in which are the actual owners of such written equipment and machinery and control rights to vote on usage and investments of such.
7. The defendants wrongfully and illegally extracted, destroyed, scrapped and took the finances of major lines belonging to the citizens and residents of the panes owned by the owner(s) of Earth causing unsafe conditions and loss of securities.
8. The defendants caused illness and death to the resident of Earth by extracting an over abundance of percentages of trees, especially deciduous, which caused an unbalance in and of pollutants to the panes of Earth which caused an rise in percentages of fungi and parasites and increased diseases to humans and other species that lead to extinction of thousands of species every year and such activity is illegal as stated and appearing in the original printing of The Constitution Of The United States Of America and is part of such said Constitutional Printings and of all other World Constitutional Printings that are in practice to this date.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants to give the Plaintiffs along with other qualified groups supervisory rights and control of above said natural resources and that the defendants replant such trees at their own personal cost without tax credits, grants, write offs or any other financial investments from organizations that actually belong to the World Citizens and not to wayward administrations that have wrongfully acquired such said assets through means in which the governments of this world were used and therefore the citizens properties and assets were wrongfully engaged in impious activities without approvals from these residents affected by such wrongful dealings, and the defendants pay for the cost of protection for wooded areas by roads especially containing larger trees and updated practices are enforced to stop toxic runoffs occurring along air runways, roadways and waterways that are combining together along with added salts and acids used during the winter, pesticides and herbicides used in spring summer and fall and are releasing toxic gasses into the air that are drying out the branches, trunks and roots of trees and causing fungi and disease leading to death of larger species, and all of The US Congress, Senate, White House Administration, Legislators, Governors, Mayors, Judges, Lawyers and all others involved be removed from their positions as told to me by authorized assessors told me

what would need to be done if I ever saw too high of a percentage of large trees being extracted from this county and that if it came to this point that it meant that alien nations had invaded and intermingled into our systems and must be totally removed.

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and wrongfully and illegally extracted and sold women's eggs to other countries without approval from the women and without payments for the eggs going to the owners.
2. The defendants wrongfully transported extracted female eggs and male sperm across State And Country borders.
3. The defendants paid for destruction of records of victims that eggs and sperm were stolen from.
4. The defendants sent in fake professionals with fake credentials that not only stole and sold eggs and sperm, but also were involved in transporting other organs illegally across State And Federal borders.
5. The defendants wrongfully and illegally took the Plaintiff's, Linda Maroulis, eggs and sold them without consent when I purposely had my tubes tied to avoid spies impregnating me and bringing more Children into such a horrible mess that just keeps getting worse because nobody will straighten up and deal with reality and facts.
6. The defendants are running Child Trafficking Rings and are using Religious Facilities as transfer markers on roadways, highways, waterways, airways, and railways.

7. The defendants wrongfully and illegally switched Children for sick Children for paid medical treatments.
8. The defendants and affiliates inflicted DNA of the plaintiff, family, and friends and everybody with tracking and mind controlling mechanisms which caused people to become violent, especially towards those close to them and even caused murders.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants to give the Plaintiffs \$108,000 USA for each egg or sperm cell stolen, plus \$108,000 for personal damages, and that Parental Visitation Rights are honored to the Plaintiff, Linda Maroulis, and any other victims that wish to help raise their Children, and that all cost of visits are paid for by the defendants, and if any conditions are deemed hazardous and unsafe or illegal for Children then the Plaintiff, Linda Maroulis, has guardian rights, and that all eggs and sperm that have not been used be returned to the owners in safe and usable condition.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and wrongfully extracted blood from high school student without parental consent and without knowledge of their medical history.
2. The defendants targeted students that are from origins with blood disorders to try and kill of certain races.
3. The defendants targeted the Plaintiff's Children through Ionia High School, WKAR, and The Red Cross and caused near death situations in the health of the Plaintiff's Children and would have caused death if hydration wasn't administered by the Children's Mother immediately.
4. The defendants targeted actor's and land owner's Children and caused death to many of them through contaminations of blood, bone and marrow breakdowns through cameras, lights, mercury fillings that are fatal with drinking of alcohol and when too many salt substances are absorbed and cannot be processed properly.
5. The defendants used such lighting/mercury tactics to cause the Driver of Princess Diana and Dodi AlFayed to collapse which brought upon death to those in the accident.
6. The defendants paid off people to be involved in such said attempts and murders and hid payments through compensations.
7. The defendants paid lawyers to have their Children have parties after blood withdrawals where consumption of materials that could trigger episodes of breakdowns and cause death were available to the Children.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants and that the US Congress, Senate, White House Administration, Legislators, Governors, Mayors, Judges, Lawyers, The EU, Red Cross, Untied Way, White

Supremacies Groups and all others involved be removed from their positions and be charged, fined and jailed for attempted murders and murders of Children and Families throughout the world and that all victims are somehow reimbursed for their hardships and horror that has harmed so many Families.

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and are involved in unfair practices dealing with Medical Marihuana
2. The defendants target sick people during depressed times and cause unfair rises in costs.
3. The defendants helped to knowingly distribute bunk marihuana that does not have a high enough THC level to promote healing and promoted usage of fertilizers high in salts that cause breakdowns in the body systems of people from certain accents.
4. The defendants provided conditions to cause higher rates of cancer in areas and then set up marihuana sales and took advantage of the ill.
5. The defendants are not offering fairness to all as far as medical marihuana is concerned and as far as cancer cures and preventions are concerned.
6. The defendants did not communicate with each other and try to provide safe means of the transmission of medical marihuana being used across the world.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants and that other programs are allowed to compete fairly for everybody and that the defendants return property to individuals that were wrongfully arrested and set up real programs that help everybody and are not made so that lawyers and judges make profits off from sick people, and the defendants must pay each victim a sum of \$33,333 for harassment and wrongful discourse of fundamentals. (Ex: Fruit For Youth LLC's new program called Youth Age Program (YAP) so that people of all ages from different heritages are allowed to grow healing herbs including marihuana and learn the beneficial ways that such herbs are used and

learn which are harmful and need to be avoided, and is done so as we all YAP to one another and learn and teach each other.)

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and let external forces take over holding shares of financial institutes without properly notifying the true shareholders.
2. The defendants let external forces close dealerships that where operating fairly and such external forces are now operating dealerships that smash customers' credits, issue fake warranties and are mean.
3. The defendants helped engage in maddening wars that made workers from other areas mad at Americans and caused workers anger that led to ignorant contaminations of oils, drinks, chocolate and other fluids that contain toxic war bits and pieces.
4. The defendants used the Plaintiff's ideas without reimbursements and by doing so caused the Plaintiff, Linda Maroulis, the karma and worry of matters dealing with manufacturing and all processes involved in the new products.
5. The defendants let external forces torture residents of the USA that have parents that are land and/or resource owners with wireless technologies that control mind thoughts through mercury in the teeth, lights, magnetics and through alternations of elements and DNA.
6. The defendants are not offering fairness to all and let external underground forces take over the world.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants and the Plaintiff, Linda Maroulis is awarded \$108,000,000 for personal reimbursement of wages for the last four and a half years, plus \$108,000,000,000 from the external forces for harassments and for running me off my land in West Virginia and for starting

up faulty businesses that are harmful to all, plus 11% of all sales of any of Plaintiff's proposed products, ideas, cases and promotions, plus return of shares that the Plaintiff truly owns.

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and are involved in unfair false representation of the constitution of the United States of America and have taken on ownership of Institutes of Religions through affiliations, marriages, administrations, associations, foundations, etc...
2. The defendants are falsely representing officials.
3. The defendants are falsely misleading the public and using actors to falsely represent authorities.
4. The defendants used unfair illegal means during election to control people's minds through wireless technologies and made it hard for so many voters to even vote.
5. The defendants purposely fracked the United States to cause excessive gas releases before elections to stop The People from having the energy and strength to retaliate and protest.
6. The defendants wrongfully used technologies owned by the United States Of America to collapse America and the World and went against World Trade Agreements.
7. The defendants wrongfully are representing businesses and charities while being on federal payrolls.
8. The defendants are wrongfully operating businesses while being federally employed that are against the best interest of the Citizens of the United States Of America, and continue operating illegal business that include poaching animals and Families in the areas where the animals roam freely at.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants and that a freeze is put on all assets of defendants and all funds and positions be replaced with cost being allocated to the defendants and not being from the funds, assets, interests, investments or positions that have been wrongfully misrepresented, and that the defendants be charged for the deaths to Families caused by poaching, and that all

individuals involved in such ill practices be removed from positions that represent the public and are barred from owning businesses and charities, and that the defendant pay \$33,333 for each incident each victim is affected by and \$108,000 for each death the defendants caused.

March 12, 2014

Case #13

Linda Maroulis
Diamonds & Designs Of Life LLC (D&D Of Life)

Plaintiffs

Vs.

Defendants

The Interstate and International Resource Field Companies

Complaint

1. The defendants conspired with affiliates and haven't been/are not providing safe distributions of energy and surges are occurring due to neglect and proper maintenance by qualified experienced professionals
2. The defendants did not exercise proper procedures for gases releasing into the environment.
3. The defendants are neglected to make use of available natural gases in waste facilities which in return caused excessive escape of gases into the atmosphere which increased cancer and diseases to humans and other species, and also sped up reproductive systems which led to not being able to produce enough nutrients needed.
4. The defendants used the Plaintiff's, Linda Maroulis, promotion "We've Buried Canada's Trash So We Don't Need To Frack!" and the Plaintiff's advice to start using the gases from the waste facilities without just reciprocation being paid to the Plaintiff, Linda Maroulis, and instead being tortured with shut off notices.
5. The defendants hired tree removal services that were not trained properly and spread diseases, fungi and viruses throughout Michigan which increased deaths in not only plant life, but in animal life also.
6. The defendants drove over areas not under lines and ran over potted perennials belonging to the Plaintiff, Linda Maroulis, which are valued at approximately \$3333, plus approximately \$1555 for costs for clean-up of the smashed pots that weeds grew into because there isn't enough time in the spring to have to deal with added problems caused by operating businesses stupidly and carelessly without being concerned about the environment or people.
7. The defendants are contaminating the air and water by not updating facilities, machinery and equipment.

WHEREFORE, Plaintiff prays that this Honorable Court enters a judgment in favor of the Plaintiff and against defendants to compensate the Plaintiff, Linda Maroulis, with free gas from the

dump which is only two miles away, and in which energy books state that we would all be able to eventually take advantage of and be provided with natural gas at low prices, and that the defendants pay for the cost of plants and cost for clean-up totaling \$4888, and the defendants pay 11% of all sales resulting from the Plaintiff's good calls that should have been done by officials but they all went on vacation for years and forgot about the People in the US, and that equipment used for fracking not brought into Michigan because it will contaminate our water resources and also that all fracking equipment recently brought here are sent back to where they came from and are used to clean up the messes left from fracking, which include providing clean water and air for everybody and provided uncontaminated grains and foodstuffs for everybody including cows and animals, which will take approximately twenty five years.

The following is what I sent to the Securities and Exchange Commission and states what I feel is best to do with my shares along with taking all of my shares out of anything to do with nuclear anything –

August 21, 2013

Security And Exchange Commission
100 F Street, NE
Washington, DC 20549

Dear Securities And Exchange Commission Representatives:

Please accept my utmost respects. I am writing in regards to share certificates that I bought fairly from my deceased Uncle Nicolas Maroules' estate sale and were originally purchased by my Grandfather, Charles Maroules. I want to cash in my shares for their net value as of today August 21, 2013 and transfer all funds into companies and organizations that I have started and proposed that I see fit to help straighten out the messes in the world that have been created by the misuse and misrepresentation of my shares, and then put the share certificates into the Museum in Detroit that holds the documents of the Lincoln Highway, our first transcontinental highway because this is the trail where all of my shares were first invested upon and then sent overseas and used across the world. It will be the 100th Anniversary of the Lincoln Highway in October, so this is a very honourable and appropriate contribution that will give just credits and proper recognitions. I am enclosing the information of the shares along with the list of my companies and organization in which my share will be invested into. I want my shares to stop being used for any activities that involve illicit sex, gambling, intoxications that are not for medical use, the eating of meat, fish, poultry, eggs, and bugs, the making of bombs, missiles, and ammunitions, propagandas and organizations that lead to unfair take overs, defamation of the true meaning of marriage, charities, the killing of humans, animals and creatures of Earth, and fracking.

My companies and organizations will be started up where ever my shares are and will stay in the countries where they presently are being used at, but will be invested properly as I see fit. This will help relieve and stress, anxieties or fears of anybody occurring unfair losses.

I have already contacted many leaders of both industries and countries to let them know of my shares and what I plan on doing with everything. If it is necessary, my companies will be incorporated.

I am looking forward to fixing the messes that were created from past carelessness, negligence and deceit. Thank you so much for your time and energy. I will now reinvest the time and energy that truly belongs to me into helping this world heal with natural means and progress fairly and safely.

Sincerely,

Linda Maroulis (Lala)

Texas Oil Products Company Shares (Pictures And Description Following Organizational List) Belonging To Linda Maroulis (Lala/Lalasaray), Bought At Her Deceased Uncle's Estate Sale, Which Are Shares That Were Invested Into The Auto Industry, Air And Space Industry, And Then Across The Interstates Into The Oil Fields, Then Invested Internationally Into The All The Energy Industry Which Then Led To Investments In All Industries Everywhere Once The Texas Oil Products Company Was Sold To Star Oil & Refinery Of Ft. Worth Texas in 1930 And Continued On Being Invested World Wide, And Then Were Invested In Activities To Extract Resources From Land In Which Was Given To Linda Maroulis From Keith Ham/Swami Bhaktipada at McCreary's Ridge In West Virginia And Were Resources And Elements That Were Transported Across The World In Which Include The Uns And Un Uns And Are Being Held And Researched With In St. Petersburg, Russia, In Which Are Resources And Elements Belonging To Linda Maroulis Which Were Taken Wrongfully Without The Permission Of Linda Maroulis In Which She Has Rights To Name And Use For What She Sees Fit. Above Mentioned Shares Together Have Reached The Highest Ownership Of Shares World Wide And Are To Be Transferred Immediately Into The Following Companies And Organizations Listed Below In Which Are Owned And/Or Initiated By Linda Maroulis:

International WaterWay Enterprizes LLC (IWE) - Started to propose and promote worldwide competitions that are fair, especially to women, and help provide a safer, more efficient, more sustainable and better future for all.

RUSTY – Revenues United Security Trust Yards

Symbolizes, promotes and provides ways of bringing us all back up into functional beings and protects us all from jealous and envious malicious attacks.

HONESTY – Horological Ontology Networks Enhancing Structural Togetherness Yearnings

Horological = Arts and crafts of measuring time and making time pieces; Ontology = Originating

transacting relations with the nature of being and the nature of reality;

Networks = Connecting transmitting stations controlled and operated as whole units;

Enhancing = Increasing values;

Structural = Interrelation parts to form unity;

Togetherness = Combining cooperating groups;

Yearnings = Desiring Pleasing Results.

GRACE – Great Reciprocations Allocating Constitutional Equality – Started and proposed to provide societies that promote fairness to women around the world.

GRACE 1 – Geological Reinforced Atmospheric Cultural Equities

Women working with the structures and development of people and Earth.

GRACE 2 – Geographical Reinforced Atmospheric Cultural Equities

Women working dealing with the different continents, countries, and regions of people of Earth.

GRACE 3 – Geocronological Reinforced Atmospheric Cultural Equities

Women working with the orders of events and timelines of people and Earth.

GRACE 4 – Geoeconomical Reinforced Atmospheric Cultural Equities

Women working with the distributions of resource, consumption, capital, investment, and production aspects of people and Earth.

GRACE 5 – Geoethical Reinforced Atmospheric Cultural Equities

Women working amongst the different belief systems, practices, and religions of Earth.

GRACE 6 – Geolinguistical Reinforced Atmospheric Cultural Equities

Women working with the development and history of the different languages of people and Earth.

GRACE 7 – Geomagnetical Reinforced Atmospheric Cultural Equities

Women working with magnetics and attractions of people and Earth.

GRACE 8 – Geometrical Reinforced Atmospheric Cultural Equities

Women working with the different aspects of mathematics of people and Earth.

GRACE 9 – Geomorphological Reinforced Atmospheric Cultural Equities

Women working with the representation of the topographic features of Earth such as mapping, charting, and the manmade features, such as designing roads, water ways, entities, positions and facilities of Earth.

GRACE 10 – Geopolitical Reinforced Atmospheric Cultural Equities

Women working in the political positions in the different regions of Earth.

GRACE 11 – Geoconical Reinforced Atmospheric Cultural Equities

Women working in the farming/agricultural fields in relations to dealing with plants and soils used by people of Earth .

GRACE 12 – Georhythmical Reinforced Atmospheric Cultural Equities

Women working with musical and sound vibrations existing to Earth.

NATHANYAL – (A Work In Progress Still To Be Determined)

Detroit WaterWay LLC (DWW) - Started for proposing and promoting rebuilding Detroit, restructuring roadways, protecting waterways, and for preserving parks and historical monuments and areas.

United Springs Of America (USAm) – Started and proposed to promote protection of our waterways uniting the United States Of America with the world.

Great Lakes Of World Water Ways (GLOWWW) – Started and proposed to work with alaQala to create, stabilize, and control water ways around the world.

alaQala – Started and proposed to promote the power of peace and the disbanding, moving of, and proper storage and disposal of old unsafe artillery.

Diamond Of Life LLC (DOL) - Started to propose fairness and opportunities to women across the world and all that they love.

Fruit For Youth LLC (FFY) - Started to propose and promote businesses and programs that provide healthy lifestyles for people of all ages.

International Cities Of God LLC (INTERCOG) – Started and proposed to furthermore previous unfinished plans promoted by Kirtanananda Swami Bhaktipada for the Glorification of God and to uplift mankind.

International Temples Of Understanding LLC (INTERTOU) – Started and proposed to furthermore and previous unfinished plans promoted by Kirtanananda Swami Bhaktipada for the Glorification of God and to uplift mankind.

Radha Krsna Gardens Of Eternal Love LLC (RKGOEL) – Started and proposed for planting and teaching about gardens that are natural, organic, and promote heirlooms and plants from heritages across the world.

ShellSea's Crud Cleaning Critters LLC (SSCCC) – Started and proposed to promote businesses and trades of the processes of production continuing into the cleaning and rejuvenating stages.

Diamonds & Designs Of Life LLC (D&DofLife) - Started to promote business and trade that detail and enhance designs of life from cultures across the world.

Diamonds & Designs Of Love LLC (D&DoLove) - Started to promote business and trade that detail and enhance designs of love from cultures across the world

Diamonds & Designs Of Faith LLC (D&DoFaith) - Started to promote business and trade that detail and enhance designs of faith from cultures across the world.

Diamonds & Designs Of Peace LLC (D&DoPeace) - Started to promote business and trade that detail and enhance designs of peace from cultures across the world.

United America (UA) – Proposed and started to unite America with all organizations across the world and to increase fairness and equality and provide just governance to all.

People's Offices Of Securities (POS) – A People's choice organization and is an alternative to the United Nations since most do not abide by the rules set forth or agree on most situations, and because the United Nations has become an unfair monopoly. Let the People around the world vote on these situations that affect us all.

Sincerely,

Linda Maroulis

Sincerely,

Linda Maroulis (Lala)

I had to act crazy and pull on all the connections of communications to make sure ownership of my shares were publicized by February 14, 2013, which if the appropriate date that was necessary, which deems that date of August 23, 2013 ineffective that the oil fields and others are trying to use to move around shares that don't really belong to them.

Here is a picture of me when I had to go to extremes to make public notice of ownership of my shares –

<http://www.wlms.com/story/21177895/police-search-for-missing-woman>

Here is a partial list of names of people who lived and worked in New Vrindaban, West Virginia, USA in the late 1980s and early 1990s of whom are the true owners of shares from funds and resources of which were wrongfully extracted from McCreary's Ridge, West Virginia, USA. (List does not contain names of children of whom are also owners of shares, funds and resources) –

SPIRITUAL NAME	ORIGINAL NAME
PAVANI	ACKER, ALICE
CARCANI	ALBERT, CARLA
EKACAKRA	ALBERT, JOSEPH
LELIHANA	ALEXANDER, TAMRA
UTTAMAUJA	ALLEN, DAVID
SUNITA	ALLIN, SARITA
TOSAN KRSNA	ALLIN, THOMAS
GOPALASAPRIYA	ALPERT, DIANE
DAIVATA	ALVES, ANTHONY
PARAYANA	ALVES, LAUREL
PRABHUDDA	ANFUSO, PAUL
ANIRUDDHA	ANZLIN, ANDREW
VAIKUNTHANATHA	ARDNT, WOLFGANG
LAKSMI	ARMSTRONG, LYNNE
